People to People Technology

OKIFAX *510*

Inkjet Plain Paper

OKIFAX *510 is an inkjet plain paper fax in a compact design with an integrated telephone handset. It's purpose-designed for the varied demands of users working in small offices or home offices, or for those who want the confidentiality and convenience of a fax machine on the desktop or at home.*

Space-saving and easy to use, **OKIFAX** *510* has the high quality and performance features you'd expect with far larger machines-output onto plain paper, a 20-page memory, and one-touch dialling of frequently used numbers.

Convenience on your desk

For fax and voice communications, OKIFAX *510* puts convenience on your desk. Whether it's used in the office or home, the neat design takes up very little space, and operation is simplicity itself: just plug it into your telephone and power sockets and it's ready to run whenever you need it - as a fax, telephone, or convenience copier.

Affordable inkjet quality

Inkjet quality at a very affordable cost allows even the smallest business to benefit from clear, ready-to-use pages of text and graphics. Efficient sending and receiving means OKIFAX *510* won't keep you waiting: it prints at around 2 pages a minute, and the 9.6Kb modem can transmit a page in around 18 seconds.

One-touch performance

OKIFAX *510's* dialling features help save your time and reduce the possibility of dialling the wrong number. For example, on-hook dialling lets you get on with your work while the OKIFAX *510* makes the connection. Also, you can choose up to 9 frequently-used numbers for one-touch dialling, and hold other important numbers in 20 'alpha dials' - where pressing an alpha character reveals a list of names with that initial, ready for you to select which to dial.

Versatile memory

A standard memory of 512Kb (about 20 A4 pages) gives you the option of storing large fax messages for transmission at off-peak call rates. And if the paper or ink runs out while receiving a large document - the memory holds it for printing later.

Paper handling made easy

No need to wait while OKIFAX *510* transmits - the 5-sheet automated document feeder handles the outgoing pages automatically. For incoming faxes, the 50-sheet paper capacity takes care of multiple jobs safely, and for typical users will need refilling little more than once a week.

Compact - easy-to-use - economical

OKIFAX *510*

Excellent value

OKIFAX *510* offers inkjet quality at a price that's hard to beat. With the option of long-lasting ink cartridges it's economical to run, and brings you the long-term value of fast, clear and efficient communications.

Environmentally friendly

Environmental factors are a high priority for Oki's designers, so the OKIFAX *510* has low power requirements on standby, and uses long-lasting inkjet cartridges. Like all Oki products, its operation is virtually ozone-free.

People to People Technology working for you

At Oki, our aim is to provide you with innovative products that help you improve the quality of your communications and make your work easier and more efficient. With the OKIFAX *510*, you'll enjoy the ease and convenience of plain-paper faxing from your desktop - backed by all the support and resource of a major international company that was founded in 1881.

TECHNICAL FEATURES

Major Applications

Part of the Oki family of plain paper facsimiles, OKIFAX *510* is an easy-to-use desktop machine combining telephone and fax functions. It is ideal for applications involving low volume, convenience faxing - but where excellent value for money and low running costs are important.

Its compact design and sophisticated features make OKIFAX *510* perfect for small office or home use as a combined telephone, fax and convenience copier, or for users in larger organisations who need the confidentiality of a personal desktop fax.

Ease of Use

- Inkjet technology - easy installation of consumables
- Integrated handset - doubles as a telephone
- F/T switching - auto-switching between phone and fax
- 9 one-touch dials - for those frequently dialled numbers
  - alpha dials for up to 20 destinations
- Auto-redial - re-dials number if busy
- TAD interface - for plug-in external answerphone
- On-hook dialling - Hands free while OKIFAX *510* makes the connection

Paper Handling

- 50 sheet paper capacity
- 5 sheet automatic document feeder
- Document size - A4
- Effective printing width - 208mm

Environmentally Friendly

- Virtually ozone free
- Energy star approved

Memory

- 512kb memory - stores up to 20 pages
- Receives into memory - no loss of messages if consumables run out (stores up to 20 pages)
- Memory transmission - store your fax message for later transmission when call

Speed, Power, Specification

- Multiple copying - up to 50 pages
- Compatibility - group 3
- Transmission speed - 18 seconds*
- Modem speed - 9.6k
- Coding scheme - MH/MR
- Ink cartridges - 850 pages** or 1700 pages**
- Starter cartridge - 850 pages* (included with the machine)
- Weight - approx. 5kgs

* based on memory to memory transmission
** based on ITU No.1 chart

Controlled Costs

- 9.6k modem - for speedy transmission
- Delayed transmission from memory - send faxes when call charges are lower
